Subject: APC fee increase

To whom this concerns,

We have had inadequate time to write a full submission due to my returning from abroad however I would like to get an email in quick today that I do not think an APC fee increase in 20% over two years is fair at all.

As a semi-recent grad I find that between ongoing education, licences and the a high APC fee it is expensive to remain accredited to treat patients.

I am sending this submission on behalf of myself, Sam Thompson [REDACTED], and Timothy James Fairhall [REDACTED]
