Page 3: General question about recertification

**Q4** Do you think the Dental Council needs to make changes to its current recertification framework?

**No - it works well as it is**

Please give your reasons::

I think the examination process is robust already and is conducted according to New Zealand standards in the first place. Those candidates who have already been through the filtration process must have performed at these NZ standard hence were given certification by Dental council. If any changes are to be made they can be made at initial examination process through some additional tests for new candidates. Also if Council is concerned about performances of any candidate after then a case by case based approached should be taken rather than unfair targeting of only overseas community.

Patients are confident their practitioner will not harm them  
**5**

**4**

Patients receive appropriate information about their treatment and care  
**3**

Patients needs and concerns are discussed and addressed with their practitioner
