Retention – recency of practice policy

Please review the Dental Council's policy on recency of practice. Any practitioner who has not held a practising certificate for more than three years, and has not been practising in their profession overseas, will be subject to this policy. The policy requires the Council to consider, on a case-by-case basis, any application for an APC by a practitioner returning to practice after three years before it can be issued. The Council can decide that conditions be put on the scope of practice of practitioners subject to this policy. In cases of extended periods of time away from practice, some form of retraining may be required. For more information, go to our website at <http://www.dcnz.org.nz/resources-and-publications/resources/policies>.

This completes the retention application form. Please complete the workforce survey on the next page.

The public register on the Council website is updated daily, and practitioners (or members of the public) can view their practising status at the following link: www.dcnz.org.nz

Please note that:

- to produce statistically meaningful data, we need to get back as many survey forms as possible
- the Dental Council will only use the information collected to monitor workforce trends, and will not publish information in a form that could identify individuals
- the data collected may be shared with the Ministry of Health (MOH) for the purpose of workforce planning. Similarly, MOH will not publish the information in a form that could identify individuals

Please return the workforce survey along with the retention application form – do not detach this section from the application form

Thank you for your time and co-operation. Please return this form with your retention application

The workforce survey questionnaire seeks information about your practise in the year 01 April 2017 to 31 March 2018. You are asked to complete the survey as if you were completing it on 31 March 2018.

Section A: To be completed by all practitioners

Section B: To be completed if you **practised** during the year ending 31 March 2018

Section C: To be completed if you have **not practised** during the year ending 31 March 2018.

You must indicate whether you give the Dental Council permission, or not, to disclose the data collected from your workforce survey to the Ministry of Health, for the purpose of workforce planning.

Question 2 - Ethnic group

The ethnic groups listed are a combination of the Statistics New Zealand Standard Classification and the current profile of oral health practitioners on the dental register. You may select as many options as you wish.

Question 5 – Practice address

More than one practice address

If you work in more than one practice, please record the address of the practice in which you worked the most number of hours in a typical week. If you spend your time evenly between two or more practices, please nominate one address as your main practice address and record that address.

Change of employer

If you had more than one practice address because you changed employers during the year, please record the address where you worked for the longest period.

Questions 6 & 7 - Hours worked

If you work a variable number of hours per week, please record the average number of hours you worked in a typical week in Questions 6 & 7. For example 5 days/week on an average of 8 hours/day, a total of 40 hours/week.

Question 7 is a breakdown of that average number of hours worked per week across your scope of practice activities, by employment type.

Questions 7 & 8 - Type of employment

Questions 7 and 8 relate to the type and extent of your employment during the period 01 April 2017 to 31 March 2018.

The main type of employment relates to the job in which you worked the greatest number of hours, and the second type of employment to the next greatest number of hours worked.

For question 7, if you have more than one type of employment, then allocate the average number of hours by scope of practice across two types of employments.

Question 9 – Reason for part-time work

For the purpose of this survey, part time work is defined as a total of **less than 35** hours worked per **week across all employments**. This should not include contract work as part of, or in addition to, your normal weekly employment arrangements.
