The Dental Council reviewed a report on the Australian Dental Council (ADC) Accreditation Committee's meeting held on 15 October 2010 and approved:

- the draft ADC/DCNZ Accreditation Guidelines and Explanatory Notes;
- the revised annual report process and report format;
- the criteria for appointment of community members/assessors for appointment to accreditation review teams be approved; and
- the recommendation that accreditation of the Bachelor of Dental Surgery programme at the University of Otago be extended to 31 March 2011, to enable completion of the current accreditation review.

Council agreed to the recommendation of the ADC/DCNZ Accreditation Committee, that the amended options for accreditation outcomes, as adopted by the ADC Board in June 2010 and the Dental Council in August 2010 be withdrawn, due to the Australian National Law requirement that stipulate the accreditation outcomes. Accordingly the accreditation outcomes should be replaced by the outcomes as set in the paper for; established programmes, new programmes and programmes undergoing major change, and that relevant changes be made accordingly to accreditation documentation.

Furthermore Council accepted the curriculum of the Orthodontic Practice Module as meeting the educational requirements within the current accreditation of the Auckland University of Technology BHSc(Oral Health) programme.
