Subject: The Dental council Consultation Document: 2017/18 budget

Dear Sir/ Madam

I would like to object to the dental council's increase in fees and costs.

I do believe that the practice Standards (Codes of Practice) produced by the Dental Council is a duplication of work already done by the Dental Association. This duplication is creating confusion for the practitioner and is indeed a big waste of money and effort.

Can't the Dental Council and the Dental Association collaborate to produce these standards?

Kind Regards

Dr Ali Baker
