Subject: 2017/18 four-month practising fee

Dear Marie

2017/18 four-month practising fee and disciplinary levy for oral health therapists

The oral health department, at the Auckland University of Technology, would like the Council know that the department agrees with the Council's proposal for the 2017/18 four-month practising fee and disciplinary levy for oral health therapists to be effective from 1 November 2017. The department agrees that the fees of \$206.69 are fair for the four-month practicing period.

Should the Council have any concerns regarding these comments please contact the oral health department.

Regards

Daniel **Fernández**
