PAGE 2: Information about the person or organisation completing this submission survey

Q1: This submission was completed by:

Name	Wendy Barry
Company/organisation	[Redacted]
Position	[Redacted]
City/town	[Redacted]
Email address	[Redacted]

Q2: Are you making this submission survey as a registered practitioner

Q3: Please tell us which part of the sector your submission survey represents a registered dental therapist

PAGE 3: General question about recertification

Q4: Do you think the Dental Council needs to make changes to its current recertification framework? Yes - but only minor changes,
 Please give your reasons:
 It requires some streamlining

PAGE 4: Area for change one: public assurance

Q5: Each of the seven statements below are equally important components of good oral health care. We want to identify where there are gaps or weaknesses in the way our oral health practitioners serve the public. Please rank the components from 1-7, with one being the component you think needs the most improvement and seven being the component you think needs the least improvement:

Patients are confident their practitioner will not harm them	6
Patients know how to complain about treatment they have received from their practitioner	5

Q6: Do you think the Dental Council needs to equip patients and the public to recognise poor practise? Yes,
 Please give your reasons:
 This would further improve the care delivered to patients/public although it would provide risk of extremism meaning that some of the Public depending on their interpretation could overreact to a "normal" practice.

PAGE 5: Area for change two: right-touch risk-based regulation

Q7: Do you feel you have adequate information about the Dental Council's approach to regulation? Yes

Q8: A risk pyramid illustrates the connection between the desired actions and/or behaviours of a practitioner and the differing level of responses a regulator can use to encourage and/or achieve the desired action and/or behaviour. Do you think the Dental Council should develop a risk pyramid/matrix to explain the types and levels of risk and corresponding regulatory responses? Yes,
Please give your reasons:
I am undecided but can't see that there would be any negatives

PAGE 6: Area for change three: risk identification

Q9: Which (if any) of these tools and mechanisms do you think the Dental Council should be using to identify and manage risk? Practice audits, Practice questionnaires,
Inquiries such as those under section 36 of the Health Practitioners Competence Assurance Act 2003
,
Risk factors for practitioners,
Competence and recertification programmes ,
Examinations and assessments,
Practical training/experience for a period of time ,
Course of instruction,
Supervision, counselling and/or mentoring

Q10: Are you aware of any other tools or mechanisms the Dental Council should be using to identify and manage risk? No

Q11: Do you think any of these risk tools or mechanisms are more effective than others? Yes,
Please give your reasons: Practice audits

PAGE 7: Area for change four: early intervention

Q12: Do you think the Dental Council should explore the use of risk analysis and risk-profiling to identify poor practise sooner? Yes,
Please give your reasons:
Surely that could only enhance the service that the public would receive.

PAGE 8: Area for change five: compliance

Q13: Do you think the Dental Council should explore the use of incentives to encourage practitioner compliance? Yes

Q14: What do you think the Dental Council could do differently to encourage practitioner compliance with its recertification requirements? Please explain: Unsure as yet

PAGE 9: Area for change six: ongoing education and learning opportunities

Q15: Do you think the Dental Council should change its current amount of prescribed hours and peer activities? No - the hours are about right

Q16: Do you think the Dental Council should change the current length of its education and learning opportunities (CPD) cycle? No - the cycle length is about right

Q17: Please rank the following statements (with one being most important and eight being least important) according to the following question: Which actions should the Dental Council prioritise when considering its approach to ongoing education and learning opportunities?

- | | |
|---|---|
| Changing the current length of the education and learning opportunities (CPD) cycle | 8 |
| Requiring practitioners to maintain an accurate record of their education and learning activities | 4 |
| Permitting practitioners to choose all of their education and learning opportunities from prescribed categories | 5 |
| Setting some mandatory education and learning opportunities based on the Dental Council's Practice Standards | 2 |
-

Q18: Do you think the Dental Council needs to make any other changes or improvements to the ongoing education and learning process? No - it works well as it is

PAGE 10: Final thoughts and comments

Q19: Do you have any other comments, suggestions or information you want to share with the Dental Council about recertification? Respondent skipped this question
