Q5 Each of the seven statements below are equally important components of good oral health care. We want to identify where there are gaps or weaknesses in the way our oral health practitioners serve the public. Please rank the components from 1-7, with one being the component you think needs the most improvement and seven being the component you think needs the least improvement:

Patients feel they are treated with dignity and respect at all times	7
Patients feel confident their practitioner has the knowledge and skills to treat them	6
Patients know how to complain about treatment they have received from their practitioner	3

Q6 Do you think the Dental Council needs to equip patients and the public to recognise poor practise?

Yes,
Please give your reasons::
It's every patient's right to know that they are being given the best possible care and to be informed of poor practice
