Page 2: Information about the person or organisation completing this submission survey

**Q1** This submission was completed by:

Name

**Krishnasami Narayanasami**

Company/organisation

Position

City/town

Email address

**Q2** Are you making this submission survey

**as a registered practitioner**

**Q3** Please tell us which part of the sector your submission survey represents

**a registered dentist or dental specialist**

Page 3: General question about recertification

**Q4** Do you think the Dental Council needs to make changes to its current recertification framework?

**No - it works well as it is**

Page 4: Area for change one: public assurance

**Q5** Each of the seven statements below are equally important components of good oral health care. We want to identify where there are gaps or weaknesses in the way our oral health practitioners serve the public. Please rank the components from 1-7, with one being the component you think needs the most improvement and seven being the component you think needs the least improvement:

Patients are confident their practitioner will not harm them

7

Patients needs and concerns are discussed and addressed with their practitioner

5

Patients know how to complain about treatment they have received from their practitioner

6

---

**Q6** Do you think the Dental Council needs to equip patients and the public to recognise poor practise?

**No,**

Please give your reasons::

I think the dental profession is best placed to do this

---

Page 5: Area for change two: right-touch risk-based regulation

**Q7** Do you feel you have adequate information about the Dental Council's approach to regulation?

**No,**

Please tell us what additional information you think you require::

I currently have no information

---

**Q8** A risk pyramid illustrates the connection between the desired actions and/or behaviours of a practitioner and the differing level of responses a regulator can use to encourage and/or achieve the desired action and/or behaviour. Do you think the Dental Council should develop a risk pyramid/matrix to explain the types and levels of risk and corresponding regulatory responses?

**No,**

Please give your reasons::

The dental profession is well regulated

---

Page 6: Area for change three: risk identification

**Q9** Which (if any) of these tools and mechanisms do you think the Dental Council should be using to identify and manage risk?

Practice questionnaires ,  
Inquiries such as those under section 36 of the Health Practitioners Competence Assurance Act 2003 ,  
Course of instruction ,  
Supervision, counselling and/or mentoring

---

**Q10** Are you aware of any other tools or mechanisms the Dental Council should be using to identify and manage risk?

No

---

**Q11** Do you think any of these risk tools or mechanisms are more effective than others?

Please give your reasons::

Instruction and mentoring will achieve objectives within the work environment

---

Page 7: Area for change four: early intervention

**Q12** Do you think the Dental Council should explore the use of risk analysis and risk-profiling to identify poor practise sooner?

No,

Please give your reasons::

Profiling sounds discriminatory

---

Page 8: Area for change five: compliance

**Q13** Do you think the Dental Council should explore the use of incentives to encourage practitioner compliance?

Yes,

Please give your reasons::

A certificate to say we are compliant would work for the dentist and the public. Any and all standards can be checked if complained about.

**Q14** What do you think the Dental Council could do differently to encourage practitioner compliance with its recertification requirements? Please explain:

Respondent skipped this question

---

Page 9: Area for change six: ongoing education and learning opportunities

**Q15** Do you think the Dental Council should change its current amount of prescribed hours and peer activities?

**No - the hours are about right**

---

**Q16** Do you think the Dental Council should change the current length of its education and learning opportunities (CPD) cycle?

**No - the cycle length is about right**

---

**Q17** Please rank the following statements (with one being most important and eight being least important) according to the following question: Which actions should the Dental Council prioritise when considering its approach to ongoing education and learning opportunities?

Permitting practitioners to set their own hours of education and learning opportunities and quantity of peer activities

4

Permitting practitioners to choose all of their education and learning opportunities from prescribed categories

5

Setting some mandatory education and learning opportunities based on the Dental Council's Practice Standards

1

---

**Q18** Do you think the Dental Council needs to make any other changes or improvements to the ongoing education and learning process?

**No - it works well as it is**

---

Page 10: Final thoughts and comments

**Q19** Do you have any other comments, suggestions or information you want to share with the Dental Council about recertification?

**Respondent skipped this question**

---
