

## Recertification

---

**To:** Recertification  
**Subject:** submissions re proposed changes

Proposed new core recertification programme Q2. With peer review, how would this be used, bullying, attestation could be come into play: within DHB structure use of PDO's is still in place so feel this is covered for therapists. Q3, cycle time, with the short staffing is it sustainable for therapists for a 1 year turn around, depends upon the amount of hours expected.

Q5. Again I feel that DHB's should have this covered with 2 yearly clinical, case study reports!

Health related changes.

Q12. Maybe a little over the top with what has been written about eye sight, visual –spatial etc capabilities from over 40, maybe 50 plus in most cases, and on an individual basis.

Continued support from council with return to work, I have found it to be very good in my own case.
