

To Whom this may Concern:

After comparing Fees with other Dental Professionals I find it incredible that Dental Therapists have been charged this exorbitant amount.

I fail to see why and how this has come about.

Yes we are an aging work force, but I think we have gained the right of respect with all the changes over the years since we graduated as Dental Nurses that we have adapted well to.

So why has this group of Dental Therapists been penalised so harshly?

I would appreciate a reply.

Thanking you

N S Wright
