Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).

Strongly agree

Q4 Please describe why you support the proposal

By removing the age limit for restorative activities in OHT scope of practice will allow the public to access more affordable, and prevention focused oral healthcare service - eventually this will lead to better oral health literacy, and improvement in better home care and their overall health.

Most of oral health therapists are already providing dental cares for both children and adults. By mentoring OHT graduates (mentoring), I have not only gained confidence in their ability of delivering restorative tx for all age groups, but I also believe that utilizing this workforce is the solution to relieve people from suffering chronic dental pain by concentrating on preventative tx and early interventions.
