Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).	Strongly disagree

Consultation on the age limit for restorative activities in the oral health therapy scope of practice

Q5 Please describe your specific concern/s with the proposal

Having employed 2 recent graduates with a Bachelor of Oral Health I am extremely concerned at this proposal. It is my experience that the practical training received by these two recent graduates was inadequate. I expected them to be able to carry out simple restorative treatment on adolescents and this was certainly not the case. BOH graduates need to be proven competent before any increase in scope is considered. While extra training is planned the lack of basics gives me serious concern. This is why I am against this proposal.

Q7 Please provide us specific comments related to the OHT scope, qualifications and competencies.

The Dental council already approves the existing course which to me is inadequate. Why would they do any better with adult scope??
