Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).	Strongly disagree

Q5 Please describe your specific concern/s with the proposal

I have worked alongside a number of therapists offering adolescent care. I have concerns about the quality of the treatment they provide. I have concerns that the easiest filling to do is the first filling placed in a tooth - and if the quality of the easiest fillings is not great, then how will the manage with adult patients - larger cavities, broken cusps, cracks, periodontitis etc etc etc
