Q5 Please describe your specific concern/s with the proposal

BOH only receives 3 years of dental education. In adults, sometimes i even struggle to do a perfect fillings, especially large/deeper ones. a proper 5 years, specific education with hands on clinical modules are required to execute such treatment, i dont want to end up needing to do more root canals/redo fillings if this proposal goes through.

Page 6: Details about OHT scope, qualifications and competencies

Q6 Do you have any specific feedback on the proposed amendments to the OHT scope of practice, prescribed qualifications or competencies as set out in appendices 1 & 2? **Yes**

Page 7: Specific comments on the proposal

Q7 Please provide us specific comments related to the OHT scope, qualifications and competencies.

the OHT is designed to treat under 18s for a reason. to be well and truly competent, one should do a BDS. even after graduation, we do a lot of CPDs in order to further/better our knowledge and skills. the current scope/qualification of OHT is just insufficient to be treating adults.
