Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).	Strongly disagree

Q9 Please provide us your feedback

It would seem the main argument for expanding the scope of practice is to make up for a lack of dentists in some regions or to be able to offer treatment cheaper to some individuals. Having therapists meet these needs in the adult population would seem to be a poor idea in my opinion.
