Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).

Agree

Q4 Please describe why you support the proposal

It will provide a wider scope of practice for myself and other OHT's who are clinically capable of more but do not have this scope, but also will help in addressing the oral health needs of our population from an accessibility and affordability perspective. If a restorative treatment can be carried out on a permanent tooth of a person under 18years, why not be able to do the same treatment on the permanent tooth of a person over 18 years.
