Page 3: The proposal

Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged). **Agree**

Q4 Please describe why you support the proposal

If we have been treating a child since birth then technically they should have good oral health and we should be able to continue their dental care. Some families have large age gaps between siblings and parents want to use older siblings as role models to younger siblings. Allows for more continuity of care.
