Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).	Strongly agree

Q4 Please describe why you support the proposal

Finding that, people between 18-27 have lots of oral health problems and mainly due to affordability, and as a OHT we are already working on adult teeth so why limit ourselves now. This I believe will help reduce some OH inequalities.

Q9 Please provide us your feedback

Would be really good to see that we are able to have that limitation removed (18yr limit) which would also retain our graduates in Nz too
