Page 3: The proposal

Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged). **Strongly agree**

Page 4: Your support

Q4 Please describe why you support the proposal

OHTs are already treating adult teeth under the current scope on children below the age of 18, therefore, there is no reason as to why treatments cannot be provided to all ages. Removing the age limit will enable primary dental care to be provided to all age groups and more dental professionals will be available to provide for the public.
