Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).

Strongly agree

Q4 Please describe why you support the proposal

Because decay does not stop at the age of 18 years old...The public mostly avoids the dentist majority of the time due to the high cost of treatment etc..I understand materials/restoration costs are high but simple dental treatment such as one surface restorations etc should not be limited to age...Especially due to the fact that we (oral health therapists) already do these types of treatment with adolescents...The teeth are still permanent teeth aren't they?? I think removing the age-limit scope would improve oral health in this country as our expertise would NOT go to waste.
