Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged). **Disagree**

Q5 Please describe your specific concern/s with the proposal

We (the Northland NZDA) are happy to have the proposed scope amended however we feel the current paper needs modification-oral health therapists must (when treating over 18 year olds) have direct oversight by a dentist or have treatment prescribed by a dentist as therapists are not likely to have adequate training on all restorative treatment options available (implants, advanced prosthetic options). This is to ensure patients are given all options available.
