Q3 Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).

Strongly agree

Q4 Please describe why you support the proposal

Clinicians with the Oral Health Therapy scope of practice have gained the experience and understanding of how to treat adult patients. Not only are they currently treating adults with dental hygiene skills but are already practicing restorative treatment on permanent dentition.

So it would make sense to have no age limit as it shares the load between the dentists and dental therapists.
