Page 3: The proposal

**Q3** Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).

**Strongly agree**

**Q4** Please describe why you support the proposal

I support the proposal because Oral Health Therapists should not stop or limit their work. Their profession is very important and would help with more treatment to more patients. And therefore better the country's oral health. This would also increase the access to crowns and fillings for patients who trust more an Oral Health Therapist.

**Q7** Please provide us specific comments related to the OHT scope, qualifications and competencies.

I think by removing the age limit for restorative activities would bring our country to a new modern level and increase the health of residents in the long term.
