Q5

No

Do you support the proposed Supplementary risk management principles for oral health during the COVID-19 pandemic? If you do not support the draft, please share your concerns, reasons for your view, and proposed alternatives if you have any.

Q6

Please share any comments you have below:

The general outline of the IPC is good. However the requirement to change tunic/gown or a disposable plastic apron after every low and moderate risk patient is both unworkable and unnecessary.

An alternative would be to change daily or when visibly soiled for low risk patients and after every moderate risk patient.
