Q5

No

Do you support the proposed Supplementary risk management principles for oral health during the COVID-19 pandemic? If you do not support the draft, please share your concerns, reasons for your view, and proposed alternatives if you have any.

Q6

Please share any comments you have below:

The requirement to change gowns after every patient or wear aprons to be disposed of after every patient for low risk patients, I currently consider excessive. I would need further convincing that this is necessary and outweighs the cost and environmental damage it would cause. This is not a requirement for the low risk category under the current system. I do however agree it appropriate for moderate risk patients.
