Dear Marie

Thank you for your email and request for my opinion on this change.

I support the amendments as proposed and definitely do not support the publication of a list of my colleagues names which may find its way into the public domain.

I support the process of Council engaging with colleagues and appointing supporting colleagues so that an errant colleague can be brought on track and the reasons for the lapse also recorded in Council so we are truly a Council that cares.

The Council has for far too long, been seen to be draconian and causing mental anguish to colleagues. This perception must change.

Best regards

Loy
