re feedback requested

---

[REDACTED]

Dear DCNZ,

In regards to feedback requested for the budget for 25-26-

Myself and many other practitioners are dismayed by the additional disciplinary levy that was charged in Nov 2025.

Whilst I understand the response as to why this was charged, I can't help but think this was a very large collective sum of money charged across the professions, and hence represents mismanagement of DCNZ's budget.

Furthermore, myself and others have sought feedback as to why there are so many additional disciplinary cases, and have received no helpful information. We seek to identify current issues so that further disciplinary cases can be avoided. This is important not just for reducing legal fees required but also as a matter of public safety.

We would appreciate more transparency in this regard.

Sincerely,  
Dr Natasha Bell
