**Q12**

Please tell us why:

I get multiple applications from unregistered practitioners for jobs and I do not even know if their qualifications are real. We should focus on job opportunities for NZ graduated practitioners instead of opening up the floodgates for others who are not correctly trained.

**Q27**

Is there any additional feedback you would like to share on the consultation?

I think in an era where complaints are already on the rise we should definitely not make it easier for practitioners from overseas markets to come in. I believe that complaints will just skyrocket and will cost the current registered practitioners in levies. This is not a good idea. please seriously reconsider this.
