Page 4: Proposed registration pathways

Q9

No

Do you believe the proposed changes will help reduce barriers to registration for suitably trained overseas practitioners?

Q10

Please tell us why:

It is very difficult to control the dental standards from another country especially when the country they are coming from is big with numerous universities. Not all university standards are the same despite being from the same country. I know this for a fact when I visited a few countries one being India. It is better to recognise specific institutions (universities) compared to being generic and recognising countries if we want to have this pathway.

Oppose

Do you support the introduction of the 'Competent authority - registration' pathway?[Click to learn more about the proposed pathway](#)

Q12

Please tell us why:

Again, for the same reason, I do not think the proposed safeguards in place by working for someone and having that someone write a letter of recommendation at the end of it all is going to safeguard standards in NZ. The patient will pay the price. Also, unless you can ensure that the overseas dentists are going the places in NZ (rural or towns), the bigger centres eg Auckland, Chch have stiff competition as it is and struggle to make a decent living unless they work weekends.

Q14

Please tell us why:

Again for the same reasons said previously. We have no idea the difference in health systems from overseas countries which are large and have poor overall government control

Easier for the provider to be called out if they are incompetent without endangering the public.

Q25

Yes

Do you find the proposed fees for the new registration pathways reasonable? Proposed fee notice

Q26

Please tell us why or why not?

But I think it is too low. You will be opening the flood gates to competent and incompetent dentists.

Page 14: Thank you for your time

Q27

Is there any additional feedback you would like to share on the consultation?

I would like to know the actual reason we want to encourage overseas dentist not from US, UK, Canada to enter NZ. This will determine how loose we want this pathway to be or tighter control needed.
