Q6

Dentist

What is your profession?

Q7

Please enter your Dental Council Person ID, if applicable

DD4003

Page 4: Q1 - Sedation practice standard

Q8

Agree

Do you agree/disagree with the updated draft Sedation practice standard?

Q9

Respondent skipped this question

If you disagree, please tell us why:

Page 5: Q2 - Sedation practice standard

Q10

Yes, more clarification or guidance needed

Are there any areas of the proposed Sedation practice standard you feel require further clarification or guidance?

Q11

If yes, please tell us which areas and why:

The logistics of general practitioners who have been used to providing minimal oral sedation without formal sedation training accessing courses to upskill or observation/ mentorship in enough volume that services across the country won't be impacted significantly. The patients won't have difficulty accessing these services whilst dentists upskill. Also why is the only age consideration for dentists here 6 yrs and older? what about the 6-14 yrs age group, has the risk been considered for this age group?

Page 6: Q3 - Sedation practice standard

Q12

Do you have any further comments on the proposed Sedation practice standard?

I agree in principle but when it comes down to the specifics of how this will work both training and patient access wise whilst we transition from the standard as it is to what it will become.
