Page 4: Q1 - Sedation practice standard

**Q8**

**Agree**

Do you agree/disagree with the updated draft Sedation practice standard?

---

**Q9**

**Respondent skipped this question**

If you disagree, please tell us why:

---

Page 5: Q2 - Sedation practice standard

**Q10**

**Yes, more clarification or guidance needed**

Are there any areas of the proposed Sedation practice standard you feel require further clarification or guidance?

---

**Q11**

If yes, please tell us which areas and why:

The draft says that controlled drugs may be prescribed by dentists and marked 'for dental use only'. This is at odds with that on the Ministry of Health website requiring controlled drugs to be on a triplicate form H572 or NZePS/equivalent.

---

Page 6: Q3 - Sedation practice standard

**Q12**

Do you have any further comments on the proposed Sedation practice standard?

I am relieved to see that the CPR requirements have changed. The previous requirements were expecting too much from dental practitioners such as manual defib and reading additional heart rhythms.

It will be a challenge to add all the patient sedation visits to a PDP.
